President of the United States: George W. Bush The White House 1600 Pennsylvania Ave. N.W.
Washington, D.C. 20500

Dear Mr. President,

We are pleased to introduce you to Embryos USA, nonprofit, California Public Benefit Corporation. Our mission is mainly education of physicians and healthcare workers in the ethical practice of medicine as well as patient education regarding issues important to us.

We are writing to you, because as our commander in chief, God has granted you the power to better the state of our nation. We are specifically referring to your power of checks and balances, as we believe that our judicial branch has gone beyond the boundaries set by God, in making Roe v. Wade the nation's law.

We wish to encourage you to use your God given right in the checks and balances amendment and undo the wrong that is done everyday to the nation. We hope and pray that the course of your administration will be distinct from your republican predecessors as they completed their course of the office without undoing the biggest injustice in the history of the United States. Their lack of commitment and failure in this regard, has made your party lose the popularity and respect it once held when Abraham Lincoln unified the nation and brought justice to us.

In closing, I wish to recommend to you to set aside playing politics, working for popularity and polls and decisively accomplish your duty to God and make Roe v. Wade a law for the lawless and the unbelievers. Do so quickly, your future is perishing.

Sincerely Yours,

Founder and CEO Embryos USA
